

Connections ...

can be fleeting and easily forgotten.

To sustain them we strive to create memories.

To be lasting they must be unique - not just a perfect martini, but a perfect moment. The most powerful memories are built from a shared moment of discovery or a shared moment of change. We Create Places that *Reconnect People*

By Uniting **Renowned Health Authorities.**

The Six Senses Wellness Board, comprised of experts in the fields of nutrition, sleep, and cardiovascular and complementa medicine, includes Dr. Steven Gundry, Dr. Michael J. Breus, Dr. Mehmet Oz, Patrick Wahlberg, and Elena Malmefeldt. This group has worked in tandem with Six Senses to create an integrated approach to wellness.

We Educate New Generations.

Because we are never too young to learn about the importance of wellness, our nutritional workshops teach kids how to eat wholesomely and healthily, while keeping the whole family's nutrition on track even when on holiday. We reconnect guests to nature and the surrounding world through magical walking trails, trekking adventures and hands-on lessons about herbs and plants.
